

Position Overview:

North Fringe Industrial Technologies Inc. is seeking skilled and dedicated individuals to join our Dredge Crew. As a crucial member of our dredging operations, you will contribute to the success of our projects by operating and maintaining dredging equipment, ensuring efficient and safe dredging activities. All dredge crew members are cross-trained and expected to rotate positions on a regular basis.

Key Responsibilities:

- Operate dredging equipment, including but not limited to dredges, pumps, boats, and related machinery.
- Perform routine maintenance checks on dredging equipment to ensure optimal performance.
- Monitor and adjust equipment settings to meet project specifications and requirements.
- Adhere to all safety protocols and guidelines to ensure a safe working environment.
- Participate in safety meetings and training sessions.
- Identify and report any potential hazards or safety concerns promptly.
- Work closely with other crew members and project managers to coordinate dredging activities effectively.
- Communicate clearly and effectively with team members to ensure seamless workflow.
- Conduct routine inspections of dredging equipment to identify and address any mechanical issues promptly.
- Perform basic repairs and troubleshoot problems with equipment.
- Assist in coordinating maintenance schedules to minimize downtime.
- Previous experience in dredging operations is preferred but not required.
- Ability to operate and maintain dredging equipment.
- Mechanical aptitude with the ability to troubleshoot and perform basic repairs.
- Strong commitment to safety and adherence to safety protocols.
- Effective communication and teamwork skills.
- Flexibility to work in various weather conditions and adapt to changing project requirements.
- Knowledge of environmental regulations related to dredging activities is a plus.

Qualifications:

- Ability to read and write in English
- Certification or training in dredging operations is desirable.
- Pleasure Craft Operator Card (PCOC) required. Successful candidates who do not currently hold a valid PCOC will be required to obtain one as part of their onboarding.
- Heavy Equipment Operator Training considered an asset.

Physical Requirements:

- Ability to lift and carry heavy equipment and materials.
- Comfort working in marine environments and varied weather conditions.

About Us:

North Fringe Industrial Technologies Inc. is a Canadian technology company with nearly two decades of experience in innovative pumping and industrial solutions. We are proud to be a trusted industry partner specializing in off-site dredging and dewatering projects nationwide. Learn more at:
