

About Us:

North Fringe is a proudly Canadian company with locations across the country. We specialize in industrial pumps, equipment rentals, and pump repair services, and we take pride in solving problems for our customers with reliable support and a strong technical foundation. As our company continues to grow, we're looking for exceptional people to grow with us.

Position Overview:

North Fringe is seeking a skilled, safety-focused Red Seal Welder to support the fabrication, repair and modification of industrial pumping equipment, structural components and related assemblies. The successful candidate will take pride in producing high-quality work, reading and following technical drawings, and working collaboratively with our shop and service teams in a fast-paced industrial environment.

Key Responsibilities

- Perform MIG, stick, TIG and other welding processes as required for steel, stainless steel and other materials.
- Fabricate, repair and modify pump skids, piping, structural supports, equipment components and custom assemblies from drawings, work orders and verbal instructions.
- Prepare material for welding by cutting, grinding, fitting, beveling and cleaning components.
- Read and interpret blueprints, shop drawings, measurements, weld symbols and technical specifications to complete work accurately.
- Inspect completed welds and assemblies for quality, fit-up and conformance with required specifications.
- Use shop equipment and hand tools safely, including cutting, grinding, lifting and material-handling equipment.
- Assist with equipment teardown, repair and reassembly work when required.
- Maintain a clean, organized and safe work area in accordance with company safety policies and procedures.
- Identify material, tooling or repair requirements and communicate them to the Shop Foreman.
- Support other shop, service and field activities as business needs require.

Skills & Qualifications

- Valid provincial or territorial Welder Certificate of Qualification with Red Seal endorsement.
- Experience with MIG and stick welding. TIG welding experience is an asset.
- Current CWB welding qualifications, or the ability to obtain them, are an asset.
- Ability to read and interpret blueprints, shop drawings and weld symbols.
- Strong understanding of welding safety, quality control and safe work practices.
- Experience with fabrication, fitting, cutting and grinding in an industrial or heavy-equipment setting.
- Machining experience, including use of manual lathes, mills or other machine-shop equipment, is an asset.
- Mechanical aptitude and familiarity with pumps, piping, rotating equipment or industrial machinery are assets.
- Ability to work independently, manage priorities and contribute positively within a team environment.
- Strong attention to detail, problem-solving skills and pride in quality workmanship.
- Valid driver's licence and reliable transportation.

Physical Requirements

- Ability to lift, carry and move materials and equipment up to 50 lb, with assistance or lifting equipment for heavier items.
- Comfort working in a shop environment that may include noise, dust, welding fumes, heat, cold and standing for extended periods.
- Ability to safely perform physical tasks such as bending, kneeling, climbing and working with hand and power tools.

What We Offer:

- Stable, full-time position with competitive compensation.
- Extended health and insurance benefits.
- Group RRSP plan with employer contributions.
- A professional, respectful and safety-focused workplace.
- Opportunities for skills development and long-term career growth.

How to Apply

We are looking to fill this position immediately. If you're interested in joining our growing team and contributing to a fast-paced, customer-focused environment, we encourage you to submit your resume and a brief cover letter at www.northfringe.com/careers/ as soon as possible.
